

JOURNEY^{to} SPACE

FOR IMMEDIATE RELEASE

Jan. 20, 2015

PATRICK STEWART TO NARRATE *JOURNEY TO SPACE* **New documentary explores next steps for human space exploration**

EL SEGUNDO, Calif. – K2 Communications and Giant Screen Films today announced that prolific actor Sir Patrick Stewart is narrating *Journey to Space*, a new Giant Screen documentary on the future of human space travel launching in select theaters this February. The documentary showcases the concepts, hardware and people that will carry out the next generation missions that will make humanity a spacefaring species.

Celebrated for his roles as Captain Jean-Luc Picard in *Star Trek: The Next Generation* and Professor Charles Xavier in the *X-Men* film series, Stewart is a Grammy Award winner, as well as a Tony, Emmy and Golden Globe nominee. In *Journey to Space*, he will take audiences on a behind-the-scenes tour of the international effort to send astronauts to Mars within the next 20 years.

“It was a delight to contribute to this exciting film project, which will let audiences young and old know how surprisingly close we are to sending humans into deep space,” said Stewart.

Director Mark Krenzien added: “Patrick’s narration is the perfect icing on our space-story cake. Everyone in the studio was beyond impressed by his enthusiasm for the project and his dedication to every nuance and detail.”

The Smithsonian National Air and Space Museum in Washington, D.C., was selected for the World Premiere, with additional IMAX(R), Giant Screen and other specialty theaters throughout the U.S. and worldwide committed to show the film in both 2D and 3D over the coming months.
